Quality/Supervision Certificate

Certificate: 97-623-3
Campus: Beaver Dam, Fond du Lac and West Bend
(Some courses are available online.)

Description

This certificate focuses on the management skills necessary in the field of quality management. Five courses complete the series. Classes are a combination of the Leadership Development and Quality program areas, providing individuals with an interdisciplinary experience.

Courses are scheduled days, evenings and weekends throughout the campus locations and some are offered online. The classes are offered in an accelerated format and designed for working adults. Classes meet for six weeks, four hours per week. Extensive out-of-class work is required.

This certificate allows students to take associate of applied science degree courses without the time commitment of a full-time program—the credits can later be applied toward an associate of applied science degree if so desired. In addition, graduates or those currently enrolled in a program may find they have already completed some of the certificate's requirements.

Courses in this certificate can be customized for on-site company training.

Outcomes

- Practice team-building and problem-solving strategies.
- Explore strategies to direct individuals and processes in an organization.
- Apply the four pillars of lean manufacturing that support world-class manufacturing.
- Implement ISO 9000/2000 standards throughout process design and control during the manufacturing cycle.
- Examine measuring methods for control and quality plans.

Career Opportunities

Many people interested in this certificate are already employed in the field of quality management or supervisory management, or they are looking to move into a supervisory position within the quality or production areas. These classes provide formal education and networking opportunities for employed adults.

Admission Process

- Submit the college admission application.
- Submit the $30 one-time fee.
- Meet with an admissions specialist to determine the best course sequencing and prerequisites (strongly encouraged).

The Final Steps

When you are in the last semester of coursework, complete the graduation candidacy form and submit it with the $25 fee to the Registration Office.
