

Financial aid is designed to supplement the resources of the student and family. Financial aid—grants, loans and work study—is awarded as eligible.

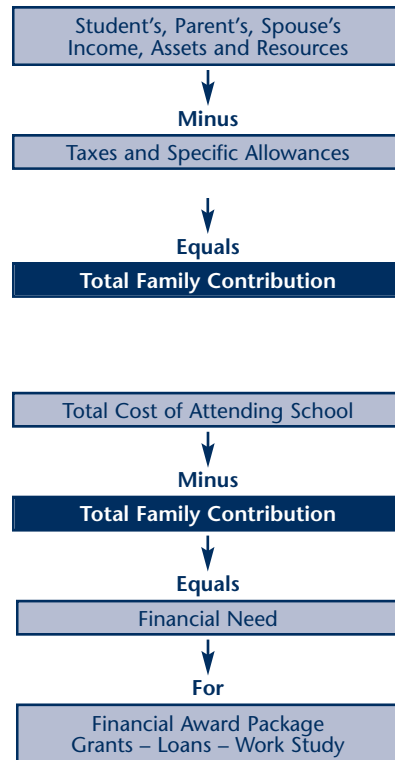

Simply stated, a grant is financial aid that is not repaid by the student. A loan is borrowed funds that must be repaid. Work study is earned funds through an on-campus or off-campus job, that ties in with the student’s classroom study.

Approximate full-time school costs for a nine-month academic year are:

<b>Living at Home</b>	<b>Living Away From Home</b>
Program Fees . . . . . \$3,388	Program Fees . . . . . \$3,388
Board . . . . . 2,781	Board . . . . . 6,137
Books . . . . . 1,265	Books . . . . . 1,265
Personal Expenses . . . 1,639	Personal Expenses . . . 1,639
Transportation . . . . . 1,206	Transportation . . . . . 1,206
<b>TOTAL . . . . . \$10,279</b>	<b>TOTAL . . . . . \$13,635</b>

## Analyzing Financial Need

The U.S. Department of Education determines a student’s need for financial aid by:

- Subtracting the total family contribution
- From the student’s total cost of attending school
- The difference constitutes the student’s financial need
- This need is met by what is referred to as a “package” – usually made up of a combination of grants, loans and work study.

Grant and loan aid is disbursed into the student’s account on a semester basis. Work study is paid according to hours worked during a regular payroll period.

## Eligibility

To be eligible for financial aid, the applicant must be a permanent resident of the United States, not be in default on a student loan and not owe a refund on any federal aid. To retain eligibility, the student must maintain satisfactory academic progress defined as completion of 75 percent of attempted credits with at least a “C” average. Refer to the school’s published financial aid progress standards for information.

## Applying for Financial Aid

1. To be considered for all financial assistance, the Free Application for Federal Student Aid (FAFSA) must be completed (apply online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov)). Students must apply each academic year.
2. After the FAFSA is completed and processed, the applicant will receive a Student Aid Report (SAR). The applicant must check for correct information and follow the instructions if corrections are needed.
3. Complete an application for admission. Contact the Admissions Office for the forms and requirements to be accepted for enrollment into an approved postsecondary program. Submit transcripts to the Admissions Office. All prior education credits must be reviewed for advanced standing. These credits are reviewed as stated in the Moraine Park Advanced Standing Procedure.
4. Complete and submit all supplemental forms requested by the Financial Aid Office. Students will be notified by mail of any missing items needed to complete the financial aid file.

While applications for aid are accepted at any time, those that are accurately completed and received before April 1 will be given priority consideration for grants for the next school year.

# Federal and State Financial Aid Programs

## Grants

The **Federal Pell Grant Program** was established to provide a foundation of aid to which all other types of aid are added. Determination of eligibility for an FPELL is based upon the student's need.

The **Federal Supplemental Educational Opportunity Grant Program (FSEOG)** may be available to supplement the FPELL in cases of low family contributions.

The **Federal Academic Competitiveness Grant Program** establishes a federal aid program that may benefit eligible Moraine Park students attending full-time in associate of applied science degree programs who have completed a rigorous secondary school program of study (after January 1, 2006, if a first-year student, and after January 1, 2005, if a second-year student).

The **Bureau of Indian Affairs Grant Program\*** is available to Native Americans who are at least one-fourth Indian lineage. Applicants must complete the Indian Scholarship Application available from the Bureau of Indian Affairs in addition to the Free Application for Federal Student Aid (FAFSA).

The **Wisconsin Higher Education Grant Program (WHEG)\*** can provide a grant to Wisconsin resident students attending at least half-time, which may supplement the federal aid programs.

The **Wisconsin Native American Grant Program\*** is available to Native Americans with need who are Wisconsin residents and are recognized as Wisconsin tribal members. Applicants must complete the Indian Scholarship Application and the FAFSA.

The **Minority Retention Grant Program\*** is available to minority students who are Wisconsin residents in the second year of a two-year program and who have maintained a 2.0 grade point average.

The **Talent Incentive Program Grant (TIP)\*** is designed to supplement the WHEG program for Wisconsin residents who may be disadvantaged or a minority. Contact your nearest Wisconsin Educational Opportunity Center for further information.

The **Wisconsin Deaf/Blind Handicapped Program Grant\*** is available to Wisconsin residents who show financial need and have a severe or profound hearing or visual impairment. Contact the Higher Educational Aids Board, PO Box 7885, Madison, WI 53707-7885 or call 608-266-0888 for more information.

The **Wisconsin Academic Higher Education Scholarship Program** is available to students chosen by Wisconsin high schools and the Department of Public Instruction. Students must enroll in an associate of applied science degree program, full-time, and maintain a 3.0 grade point average.

\*Must enroll in six credits needed for graduation requirements to receive.

## Scholarships

**Scholarship** information is available at the College or online at [www.morainepark.edu/financialaid](http://www.morainepark.edu/financialaid). Seek more information from high school guidance offices, libraries, newspapers, employers, clubs and the Financial Aid Office. Additional forms may be required.

Scholarships are also provided by the Moraine Park Foundation. Applications for the upcoming academic year are available by early February and can be picked up from the Financial Aid Office (all campuses); downloaded from the College's Web site, <http://www.morainepark.edu/PDFFiles/MoraineParkFoundation/ScholarshipAppl.pdf>; or obtained by contacting the Foundation Office. Minimum qualifications include enrollment in at least nine credits per semester and a GPA of 2.75 or higher once enrolled. The application deadline is typically mid-June for the upcoming academic year. If you would like further information about the Foundation's scholarship offerings, feel free to contact Val Krueger at 920-929-2127.

## Loans and Employment

The **Federal Work Study Program (FWS)** provides employment opportunities for students. FWS allows students to earn the funds necessary to meet the costs of postsecondary education with an on-campus or off-campus job.

The **Federal Stafford Loan\* Program** allows students with demonstrated need who are attending at least half-time to borrow money for school costs from a local lending institution on a promise to repay. These loans do not require interest payments while you are in school enrolled at least half-time or in deferment. Borrowers pay interest on the unpaid balance during the repayment period, which begins six months after leaving school. Loans may be made up to a maximum of \$5,500 for first-year students. The interest rate is variable and capped at 6.8 percent.

The **Unsubsidized Federal Stafford Loan\* Program** allows students to borrow at the same interest rates and loan limits as the subsidized Federal Stafford. The student pays the interest during in-school and deferment periods.

The **Federal PLUS Loan Program** allows a parent to borrow for the educational expenses of the student. The maximum amount is based on cost of education minus other aid. The interest rate is variable and capped at 8.5 percent.

\*The student is legally obligated to repay this aid. Be aware of the impact repayment obligations will have on future earnings and credit records. A repayment brochure is available in the Financial Aid Office.

These costs are estimates provided by Moraine Park Technical College and are subject to change without notice. They are not to be considered as contractual guarantees of absolute costs in each program.

## About Program Costs

**Program, Tuition and Materials Fees:** The program fees for 2009-2010 are \$101.40 per credit. Out-of-state residents can add an additional \$50.70 per credit for nonresident tuition. Materials fees are also charged in each class. All of these fees are legislated by the Wisconsin Technical College System Board.

**Special Fees:** Included in this area are supplemental fees and graduation fees, liability insurance, uniform service and other normal miscellaneous fees charged in specific programs as they may apply to that program. These fees are assessed as prescribed by Moraine Park policy. Admission, testing and background check fees (if required) are not included.

**Books/Materials:** This includes books and materials costs required of students who register for classes according to the regular curriculum schedule. Costs in this area, especially, may vary due to fluctuating costs of books and specific instructor requirements. Prices include such items as the tool kit and mannequin required in Barber/Cosmetologist, materials such as safety equipment, and special equipment not included.

**These costs are estimates** provided by the Moraine Park Technical College Registration Office and bookstores and are subject to change without notice. They are not to be considered as contractual guarantees of absolute costs in each program.

## Refund Policy

It is the student's responsibility to request a refund of fees paid by completing a Drop form from the Registration Office. A student who applies for a refund before the first day of class will receive a 100 percent refund. In cases of complete withdrawal, the percentage of financial aid monies that must be returned is based on federal refund rules until 60 percent of the enrollment period has passed. If a student withdraws from school, the Financial Aid Office must be notified. If financial aid was overawarded, the excess may need to be returned. Partial withdrawals after receipt of aid may not affect the aid initially calculated; however, it will adversely affect the student's satisfactory progress. If a student applies for a refund before or at the time 10 percent of the course's potential hours of instruction have been completed, 80 percent of student fees will be refunded. If a student applies for a refund after 10 percent but before more than 20 percent of the course's potential hours of instruction have been completed, 60 percent of student fees will be refunded. If a student applies for a refund after 20 percent of the course's potential hours of instruction have been completed, 0 percent of student fees will be refunded. For less-than-semester classes, see the registration materials for more information.

# Plan Your Educational Financing

Finances should not be a major obstacle to reaching your goals through an education at Moraine Park.
